**MEMORANDUM FOR THE RECORD**

**SUBJECT:** 18 November 1954 -- Briefing of the Task Force  
on Intelligence Activities

25X1A

The briefing today was a continuation on the organization, missions, and functions of the [REDACTED] Colonel Lane's questions were principally concerned with long-range planning, agreed activities, and training.

a. Colonel Lane expressed great interest in the development of our long-range planning system. He remarked that it was imperative that we know exactly where we are going. He added that the Agency can't be really criticized inasmuch as it is less than ten years of age and thus in its infancy when compared with the long-established services of the British and the Russians.

b. A discussion of the term "agreed activities" was especially interesting to the Colonel and stimulated a number of questions on the subject. Colonel Lane stated that he was getting a better understanding of the problem. He remarked that the Air Force was very interested in establishing their own organization for conducting operations in the clandestine field and assumed that an uncoordinated effort on their part would be a violation of NSCID 5.

25X1A c. Colonel Lane is very interested in the training which Clandestine Services personnel receive and the basis for evaluating training needs. He is anxiously looking forward to a trip to [REDACTED] He further added that his interest in the overall training picture was stimulated by a statement in the "Jackson Committee Report" which stated that there was poor utilization of existing CIA training facilities.

d. It is obvious that Colonel Lane is looking for duplication of effort throughout the Agency.

e. Colonel Lane is somewhat confused by the overuse of organizational symbols (DCI, IAC, DD/P, etc.) finding it difficult to keep them straight in his mind. Future briefers could ease the situation by using actual names of component units rather than symbols.
